members

## Now available for libraries!

For the first time ever, the *Neurosurgical Atlas* – widely known as the ultimate resource in cranial surgery – is available for your institution. This beloved, immersive resource from the world's largest nonprofit organization for neurosurgical education and research has inspired innovation and technical excellence.

### Dedicated Community of 70,000+

Since launching in 2016, the Atlas has grown a community of **over 70,000 members** that includes:

- » Practicing Neurosurgeons
- » Medical students attending neurosurgery rotation as part of their medical school curriculum
- » Residents in Neurosurgery, ENT, Radiology, Anesthesiology, Endocrinology, and other specialties
- » Physicians Assistants and Nurse Practitioners
- » Radiologists/Radiation Oncologists
- » Head and Neck (ENT) Surgeons and Anesthesiologists
- » Operating room staff (nurses, technicians, etc.)
- » Pathologists, Anatomists, and Neuroscientists

### Extensive, Visual, and Authoritative

The Atlas provides the most complete multi-media collection to support neurosurgical training and practice in existence, including:

- » **1000+** narrated operative videos in which top surgeons perform novel and efficient techniques
- » **526** comprehensive and exclusive chapters
- » **5000+** exclusive, original step-by-step illustrations and surgical images
- » **1700+** interactive neuroanatomy images that offer an unparalleled learning experience

And we're growing, with plans to add **hundreds of new videos** over the next two years, including new collections in pediatrics and spinal cord surgeries.

## Our Non-Profit Mission

All proceeds from the Atlas go back to expanding its content and driving forward our vision for the future of neurosurgery. We strive to push the boundaries of surgical excellence through innovation, revolutionizing the care of patients worldwide.

## An Indispensable, Digitally Born Resource

With **high-quality, visually stunning content** that covers both basic and complex procedures, the Atlas was born digitally. Content is constantly updated with the latest techniques, ensuring the neurosurgery community is equipped with the best possible tools to do their work.

The Atlas has proven to be an **invaluable resource** for the advancement and modernization of neurosurgery. Your institution's users can now gain access through a subscription or perpetual license.

## Hear From Our Members

"The Atlas has taken the field of neurosurgery into the future...the Atlas is serving as a 'bridge' to what is coming."

- Steven Kalkanis, MD, CEO of the Henry Ford Medical Group (HFMG) and Senior Vice President and Chief Academic Officer of Henry Ford Health System

"The Atlas is visually stunning. The 3d views, the way you can use things... **There is nothing else like this**, especially for pathologists. I require all my residents to sign up for the Atlas."

- Mari Perez-Rosendahl, MD (University of California, Irvine)

"As a neurosurgical trainee, this is without a doubt the **most valuable resource I have ever come across.**"

- Dulanka Silva, BA (Hons) MA (Hons) MBBChair MPhil (Cambridge) MRCS (Eng), United Kingdom

"I have long admired and marveled at the Atlas as being one of the **most important vehicles for neurosurgical education** in the history of our specialty."

- James Rutka, MD (University of Toronto, Editor-in-Chief, Journal of Neurosurgery)

"It is the **single most important website for neurosurgery** in the world."

- Rick Boop, MD (St. Jude Childrens Hospital and University of Tennessee Health Science Center)
